## THE BERLIN OFFICIAL CAPITAL

### Confirmation of Rout is Expected Hourly

#### ADMISSIONS MADE BY BERLIN IN ENGLAND CONSIDERED SIGNIFICANT OF BAD DEFEAT

For First Time Since Beginning of War There is Concordance in Drift of Reports From Headquarters of Three Armies Holding Positions in France—French advances from Verdun and Toul Have Been Renewed Says German Report Confirmation That German Right Has Broken and Was in Flight is Still Lacking.

London, Sept. 30.—For the first time in this war of nine nations there is some concordance in the drift of reports from the headquarters of three armies holding positions in France, which is still the theater where the most important operations are in progress. It is, however, to be noted that corroboration by one of the claims of the other is largely lacking.

"The French advances from Verdun and Toul have been renewed," is the German report of yesterday's fighting on the eastern end of the line and the communication of General Joffre of the French forces, agrees with it in the statement that his troops "have made slight progress" in that field.

At the other end of the 250-mile line the allies "are holding their own" is the report from the British headquarters and the Berlin announcement seems indirectly to admit this claim by announcing that the battles on this end have been indecisive.

Confirmation of a News agency story that the German right wing has been broken and was in flight is still lacking.

Commentators show much skepticism of this report, although they consider the breaking of the German right would be only a natural result of the first turning movement, the present status of which is pictured in the French official announcement of yesterday. This shows that the allies have pushed back the invaders in this region until the German right wing is virtually at right angles with the rest of the line.

The fact that the German army headquarters admit that their great efforts to throw back the pressure of the allies have proved indecisive is regarded in England as significant.

#### SAYS GERMAN FLANK IS HAMMERED INTO BROKEN AND VERY CROOKED LINE

Constant Thrust of Bayonet Charges and the Battering of Heavy Guns is Having Effect on Badly Pressed Enemy—Little Alteration Along the Heavily Entrenched German Center—Between the Argonne and the Meuse French Stated to Be Progressing Slightly.

London, Sept. 30.—(4:45 p.m.)—The Times has received the following from its correspondent in Bordeaux: "The constant thrust of bayonet charges and the battering of heavy guns has made but little alteration along the heavily entrenched German center, but the line of the front with any great action have been hammered into broken and sinuous lines, both on the left and right. The French are progressing slightly against the entrenched and fortified positions."

#### POSTOFFICE DEPARTMENT ARRANGES NORTH MAILES

The postoffice department at Ottawa has arranged for mail service during the coming winter of 1914-15 to Toronto, Fort McMurray, Fort McPherson and other points. Mail will leave Edmonton November 2, for Fort McMurray, Fort McKay, Fort Chipewyan, Smith Landing, Fort Smith, Fort Resolution, Hay River, Fort Providence, Fort Simpson, Fort Vaudry, Fort Norman, Fort Good Hope and Fort McPherson. Mail will leave Edmonton December 2, for Fort McMurray, Fort McKay, Chipewyan, Smith Landing, Fort Smith, Fort Resolution, Hay River and Fort Providence. Mail will leave Edmonton January 19, 1915, for Fort McMurray, Fort McKay, Fort Chipewyan, Smith Landing, Fort Smith, Fort Resolution, Hay River, Fort Providence, Fort Simpson, Fort Vaudry, Fort Norman and Fort Good Hope. It is necessary to limit the mail for these despatches to the new fall only. The weight of each letter is to be not more than one ounce. Letters to be registered. Preference will be given first to registered letters and second to ordinary letters, according to the date of posting.

A new evening paper is being started in Philadelphia.

**Boys at the Front Send Thanks to St. John's Ambulance Association**  
The boys of the 101st regiment have received the 27 parcels of clothing and other good things sent by the St. John Ambulance association and Col. B. J. Saunders wired today expressing the thanks of the boys. The telegram was to Lieut. W. C. Inglis and follows: "Kindly convey thanks of officer commanding, Col. Osborne, and the regiment, for the twenty-seven parcels received, to St. John Ambulance society, all well. Letters following. A. R. Revoir, B. J. SAUNDERS."

Keep an Eye on Turkey.  
Washington, Sept. 30.—A close watch will be kept over the manner in which Turkey will handle the new fall over Turkey. The weight of each letter is to be not more than one ounce. Letters to be registered. Preference will be given first to registered letters and second to ordinary letters, according to the date of posting.

Japan wood is to replace cedar for pencil manufacture.

#### SASKATCHEWAN IS NEW, UNROMANTIC MODERN KLONDYKE

Dozens of Old and New Miners Washing up "Pay Dirt" at Rate of \$3 Daily.

SOME BANKS WILL TAKE ALL THEY GET FOR CASH

Spectators Are Numerous—Diggers Include Wide Variety of Professions.

A gray-headed man stepped up to the receiving teller's window in the Imperial bank yesterday and from an old tub on his back extracted some nuggets of gold. He weighed them, then onto a scale, weighed them and then handed \$75 through the bars.

"Not bad," he remarked. "Oh, fair for three weeks' work, but nothing like what we used to bring in up in the Yukon," the old man replied. "Up there I have taken in more than that after working for just a day when times were good back in '98."

Such scenes are now not uncommon in Edmonton. Along the Saskatchewan river bank, within three miles of the city, are dozens of men engaged in placer mining, averaging three dollars a day and putting enough away to enable them to pass the winter in comfort.

The work is not easy, nor is any sudden fortune apt to be gained, but more than sufficient is made to keep the wolf from the door. Many of the workers are married men with families dependent upon them and while working they are reasonably sure of enough to support those depending upon them. In addition they have the realization that they are their own masters, a reflection especially pleasing to those who have certain brands of socialistic tendencies.

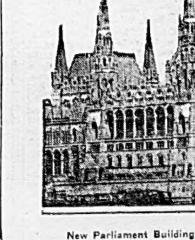

Two Make \$1920 in Day.  
There is a large variety of miners, ranging from those who could find nothing to do to those who are trying to make more money than they can spend. Among the latter about three miles down the river, are a couple of young men, well-known in Edmonton literary circles. They have an elaborate outfit, a grubstake sufficient for several months' sojourn in the wilderness, and unlimited confidence in their own ability. Nor is it apparently unjustified.

The following committee was appointed to arrange with the military authorities for the formation of a Highland regiment at the earliest possible moment: John A. McQuigley, Colonel; H. H. Edwards, James McGee, John Morris, Alex. Ixson and Henry Wylie. Cards will be circulated in order to recruit the regiment to the desired strength.

Keep an Eye on Turkey.  
Washington, Sept. 30.—A close watch will be kept over the manner in which Turkey will handle the new fall over Turkey. The weight of each letter is to be not more than one ounce. Letters to be registered. Preference will be given first to registered letters and second to ordinary letters, according to the date of posting.

Japan wood is to replace cedar for pencil manufacture.

**HUNGARIAN CAPITAL WHICH MAY BE BESIEGED BY RUSSIANS.**

#### GERMAN POSITION ONE OF EXTREME DANGER, HE SAYS

Allies Have Succeeded in Masterly Fashion in Threatening Both Flanks.

LOOKS AT PRESENT AS IF ENEMY MUST RETIRE

Impossible to Maintain Center in Present Position is Opinion Expressed.

London, Sept. 30.—(4:45 p.m.)—The Times has received a despatch from the Paris correspondent dated September 25 and deleted by the censor. It analyzes the positions in the battle of the Aisne, and the terrible fighting which took place in the valley of the Somme. The correspondent says: "Movements hitherto conceived or vaguely hinted at, are now unveiled, and the frontal attack of the allies on the German position between the Oise and Argonne now sinks into the background. One thing is certain, and that is that the German armies are in a position of the gravest danger. The allies have succeeded in a masterly fashion in threatening both flanks of the enemy simultaneously and he is compelled to fight for his life. He may succeed in extricating his forces, but, for he is still, a formidable enemy in every way. To save himself, however, he can hardly maintain his center upon his present position, and it looks as if he will be compelled to retire in order to withdraw himself from the grip of the allies' claws. If he is unable to do this, he is beaten, and it will be only the wreck of his forces which will then reach the German frontier."

Two Make \$1920 in Day.  
There is a large variety of miners, ranging from those who could find nothing to do to those who are trying to make more money than they can spend. Among the latter about three miles down the river, are a couple of young men, well-known in Edmonton literary circles. They have an elaborate outfit, a grubstake sufficient for several months' sojourn in the wilderness, and unlimited confidence in their own ability. Nor is it apparently unjustified.

The following committee was appointed to arrange with the military authorities for the formation of a Highland regiment at the earliest possible moment: John A. McQuigley, Colonel; H. H. Edwards, James McGee, John Morris, Alex. Ixson and Henry Wylie. Cards will be circulated in order to recruit the regiment to the desired strength.

#### INTERCEPTED WIRELESS TO EFFECT FLEET NOW ON WAY TO THE BALTIC

New York, Sept. 30.—Captain Goetz, in command of the Danish steamship, in today from Christiania, said that he had picked up a wireless in the North sea containing the information that 30 British warships were on their way through the Cattegat to help the Russian fleet in the Baltic sea.

Because many of the banks lack the necessary scales to weigh it properly. These again they are dubious of its quality, as some of the miners are inexperienced and when collecting it by the mercury method do not burn it properly, allowing impure matter to remain in the nugget. This, of course, can be easily remedied by getting a jeweler to refine it.

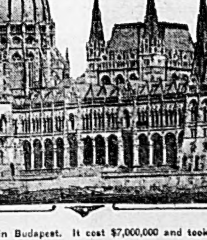

In the past week, the Imperial bank, one of the banks which accept the gold, took in about \$200 worth and they are willing to take all they can get. The jewellers of the city are also buying it in considerable quantities. It is difficult to estimate the amount mined during the last month as many are slow to cash in their hauls and it is impossible to say who has bought that already sold.

Daily, as they become satisfied that there is a good living to be made, more persons are erecting their grizzlies along the river. Many of the unemployed, who otherwise might be dependent upon the city for charity will thus be able to pass the winter on their own resources. Incidentally there is still plenty of room for more miners.

Keep an Eye on Turkey.  
Washington, Sept. 30.—A close watch will be kept over the manner in which Turkey will handle the new fall over Turkey. The weight of each letter is to be not more than one ounce. Letters to be registered. Preference will be given first to registered letters and second to ordinary letters, according to the date of posting.

#### NEW BRITISH TYPED HISTORY FORCE STABLE PARTICIPATING RIGHT TURNING MOVEMENT

#### TWO YEARS IN PEN FOR STEALING TWO DOLLARS AT FAIR

Pick-Pockets Will Have to Pay Back Winnings at Rate of Buck Per Annum.

RICHARD FENTON GETS FOUR YEARS FOR THEFT

Three Years for Procuring, Another of Heavy Sentences Handed Out

James McLaughlin will spend the next two years in the Alberta penitentiary for picking a man's pocket during an exhibition week of a two dollar bill in an old effort at this crime. This sentence was imposed in the criminal court, before Judge Taylor, Wednesday morning.

Mike Gryk was sentenced to three years in Alberta penitentiary on a charge of procuring. Stephen Melun, of Yegreville was sentenced to one year and nine months in the penitentiary on a theft charge. David Lee was also convicted on a charge of theft and was sentenced to three years.

One Nelson, of the firm of Olson and Nelson, real estate agents, was sentenced to three months at Fort Saskatchewan on a charge of false pretences.

R. G. Armour was declared to be insane and the matter was referred to the attorney general's department. J. H. Kennedy, on a false pretence charge, was sentenced to one year in the penitentiary.

Richard Fenton was sentenced to serve four years in the penitentiary for the theft of \$200 worth of furs from Wolfe and Hine. Fenton has already served 22 years in prison on three charges. These were attempted murder, theft and false pretences. He was arrested in Seattle after having sold most of the furs about \$400 worth of which were secured and returned. He put up a story of having won the furs in a poker game.

The appeal case of Jim Goon, a Chinaman, was also heard. He was found guilty on an option charge in police court and was fined \$700 and sentenced to three months' imprisonment. In default of payment, four months.

The appeal in the case of Minnie Clarke, on a larceny charge, was allowed and the conviction quashed. In the appeal case of Annie Smith, a prostitute, the conviction stands.

#### VIENNA PREPARES TO FIGHT THE EPIDEMIC OF ASIATIC CHOLERA

Paris, Sept. 30.—(11:25)—The municipal council of Vienna has voted one million crowns (\$200,000) for the construction of isolation hospitals near that city in anticipation of an epidemic of Asiatic cholera. This information is forwarded by the Milan correspondent of the Paris Mail who says it reached Milan from the Austrian capital.

Keep an Eye on Turkey.  
Washington, Sept. 30.—A close watch will be kept over the manner in which Turkey will handle the new fall over Turkey. The weight of each letter is to be not more than one ounce. Letters to be registered. Preference will be given first to registered letters and second to ordinary letters, according to the date of posting.

**HUNGARIAN CAPITAL WHICH MAY BE BESIEGED BY RUSSIANS.**

New Parliament Building in Budapest. It cost \$7,000,000 and took 27 years to build it.

Apparently to Divert Pressure on Von Kluck's Army Germans Make Furious Onslaught at Tracy Le Mont—Berlin Statements Do Not Claim Anything for Teuton Army and This is Taken to Indicate That Army is in Precarious Position—French Claim to Have Won Back West Bank of Meuse at St. Mihiel.

Paris, Sept. 30.—Hope flames high today on the boulevards and there will be bitter disappointment if official confirmation is not forthcoming shortly of the retreat or rout of the German right armies operating north of the Aisne, between the Aisne and the Somme, and again in the valley of the Somme river. It is rumored that a new British expeditionary force quite distinct from the three German armies that have clung so desperately to the line of the Aisne between Verdun and the Somme, is acting in union with the French left under General D'Amant in the turning movement north of the Somme which the official bulletin given out here today says is developing with rapidity.

Apparently to divert this pressure the Germans made a furious onslaught at Tracy Le Mont which is the apex of the salient territory south of Noyon in the direction of Soissons. This village lies just west of the forest of Laigue and northeast of Compiègne. No doubt the enemy hoped here to find a weak spot due to the removal of an army corps from the French left front to admit to the weight of turning movement further north.

The news of the day was the Berlin official statement which said: "There has been general fighting on our right wing in France but nothing decisive." Where these Berlin statements are claimed to the line of the Aisne between Verdun and the Somme, but when they claim nothing decisive it looks as if they feared the worst.

The Parisian press warns the people to keep cool and not to expect too much, even if the present movement is successful. No doubt the German staff has prepared a line of retreat which in turn may be as obstinately held as has been the line of the Aisne and Oise.

In the eastern theater of the war the situation is quiet. The French claim to have won back the west bank of the Meuse at St. Mihiel, but this lacks confirmation.

In Belgium attention fastens on Antwerp, with its great ten mile perimeter of forts, whose siege has now definitely begun.

#### VIGOROUS BOMBARDMENT BY GERMANS OF BELGIAN FORTS: LITTLE DAMAGE

Antwerp, Sept. 30.—An official statement issued by the Belgian staff today says: "A vigorous German bombardment of Forts Waelhien, Wavre, St. Catherine, which was continued throughout the night, ended at 8 o'clock this morning. The results did not succeed in silencing the guns of the Belgian forts nor in any way lowering the morale of the garrison."

"At no point did the German infantry dare to move against our first line of defense. Only one attempt was directed against Fort Liezel and Ixereven. Our troops, holding positions between these works, allowed the enemy to advance until they were within close range, when the artillery and infantry, working in a remarkable combination, showered the attacking column with a hail of projectiles and continually threw their ranks into disorder and compelled a retreat. This attempt cost the Germans dearly and was not repeated. In the evening, the events of the day confirmed the confidence of Belgians in the power of resistance of their national redoubt."

#### INDUSTRIAL LUNCHES TO HEAR ABOUT THE NORTH

Members of the Edmonton Industrial association will have an opportunity of hearing more about the north country at the noon luncheon at Gregory's cafe on Thursday this week.

A. F. Fulk, of the Hudson's Bay company, has just returned from a three months' trip to the far north and will talk to the association on "200 miles on Alberta Rivers."

Mr. Fulk was to have spoken at last week's luncheon but arrived in the city too late to be present. The program this week is in charge of Harry V. Shaw and a bumper crowd is expected to be present and hear what Mr. Fulk has to say about the great extent of territory of which he knows so much.

There will also be a musical program under the direction of H. Wild.

#### HIT GERMAN VESSEL.

Tokio, Sept. 30.—Japanese aeroplanists assert that they hit a German vessel during the latest fighting at sea. The vessel was blown to pieces by the machine at a height of 500 yards. Two biplanes and one monoplane were engaged. The wings of the machines were riddled with bullets, yet they returned in safety to their base.

#### GERMANS REPULSED WITH HEAVY LOSSES

BULLETIN—London, Sept. 30.—A despatch to Reuters from Antwerp says that the Belgian army has received this message from Antwerp: "From various points the garrison made sorties and repulsed the Germans with heavy losses. The bombardment of Fort Woluwe and St. Catherine by the Germans continues. A single attack has been delivered by the Germans on Fort Liezel and Ixereven."

#### Austrians Fleeing Before Russians Surrounded at Douklo, Says Report

London, Sept. 30.—(5:45 p.m.)—In a despatch from Rome, the correspondent of the Central News Agency says the Russian ambassador announces that the Austrian army fleeing before the Russians has been surrounded near Douklo and that its defeat is complete. All the food, ammunition and war material, which was being conveyed back to Austria, has fallen into Russian hands. The capture includes 500 military automobiles.

# Allies' Turning Movement Developing With Rapidity: German Attack is Repulsed

Reliably Stated That Many Prisoners Are Taken—Apparent Lack of Consistency in Operations of the Teutons—Zouaves Stated to Be Covering Themselves With Glory—Make Desperate Rush Into Very Mouth of Death.

**BULLETIN—Paris, Sept. 30.—(2.15 p.m.)**—According to the official bulletin on the war given out this afternoon, the turning movement of the allies north of the Somme is developing with rapidity. A German attack on Tracy Lemont has been repulsed with heavy losses.

The text of the statement is as follows:  
"First: On our left wing, north of the Somme, the action continues to develop rapidly. To the north between the Oise and the Aisne the enemy has delivered a vigorous attack on Tracy Lemont, northeast of the forest of Laigue. They were repulsed with heavy losses.

"Second, on the center there is relative calm, along the entire front which extends from Reims to the Meuse. Between the Argonne and the Meuse we have made slight progress.

"In the Voivre district there have been severe battles. Our troops have advanced at several points, notably to the east of St. Mihiel."

Paris, Sept. 30.—It was again the turn of the allies left yesterday to sustain the shock of the enemy on the battle front in northern France, and though the official communication does not say so, it is reliably stated that they again took many prisoners.

The apparent lack of consistency in the operations of the Germans added to the increased vigilance of the allies, is making the lot of the military prophets a hard one. All they can induce today from the information given out is that the Germans failed to break through the allies front anywhere.

Naturally the absence of news makes a place for rumors, which are very plentiful but which none dares to publish even if their truth had been ascertained. Commentators are required also to be very circumspect as is shown by the blank, white gaps of various censored despatches from the Paris newspapers, all that can be said of the official reports that are printable is that they are not unfavorable to the allies.

The Zouaves are reported by returning wounded soldiers to be covering themselves with glory in the allies left. It is related that one day recently the French were obliged to recede under a tremendous pressure of numbers and left eight four-inch guns in the enemy's hands. The Zouaves begged to be allowed to get them back and recaptured the position.

When trumpets sounded for the charge and the Zouaves bounded forward many turned their heads as they did not wish to see what they thought was sure to happen to them, but when they went, singing, shouting and defying the rain of machine guns. A great proportion fell on the way, but the rest pressed forward until they pounced on the enemy's line. It seemed then as if there were only a few flashes of cold steel before the enemy broke and his cannon were trained on the fleeing foe to avenge the Zouaves who had fallen in the heroic charge.

## DOUBTS WHETHER ENEMY WILL HAVE THE TIME TO BESIEGE BELGIAN CITY

London, Sept. 30.—The Standard's military correspondent says:  
"The quiet confidence, which one feels has been sounded of late in the fierce and guarded official communications that had reference to the course of war in France appears to me to be based and more persistent."

"This feeling is most prominent in Paris, where it is likely that certain people know a great deal more about what is happening than we do here. The French press, which has almost remarkable all around restraint."

Another News Comment.  
Cambridge, Mass., Sept. 30.—The discovery of a new comet by Professor Clarence F. Haggert, of the New Mexico college of agriculture and mechanical art, is announced by the Harvard college observatory.

## IN MODERN FIGHT AEROPLANE PLAYS IMPORTANT PART

Victory at Marne Said Due to Aviators on Scouting Service.

London, Sept. 30.—The Paris correspondent of the Daily News says:  
"The aviator is king of modern battles," asserts an aviator who has taken part in aerial reconnaissance in Alsace, in Belgium, and more recently in the battle of the Marne and the Aisne. He is now enjoying a few days' rest in Paris.

"Thanks to the aviator," he says, "we have won our victories and it will be thanks to him that in a few days we will be able to hunt the Germans out of France. In my opinion, sufficient has not been said of the important part aviation has played in this war."

"It is true that at first we were a bit taken by surprise. The Germans had marvelously organized their army in silence. They have more aviators than we expected, and have excellent craft. Consequently they were able at the start to count on splendid scouting service. They were over our positions at night, and at dawn their artillery shelled our positions before the reconnaissance."

"Then we put into action our admirable army of the air. It was not long before it rendered exceptional service to the headquarters staff. It played a decisive role in the battle of the Marne. At the present moment it is a precious auxiliary, one might say an indispensable adjunct, in the victorious march of our troops."

"I have been instructed to make reconnaissance on many occasions in the east and in the north. In spite of the intense fire of the enemy I have been able to report the situation of the German troops, note their movements, and we are convinced that we have been able to be of great service."

## GERMANS REPULSED BY THE RUSSOVITES

Fierce Battle Now Raging in Eastern Arena on the Nieman River.

RUSSIANS ARE REINFORCED

Instant Supply of Fresh Men From Vilna Gives Czar's Men Advantage.

London, Sept. 30.—(4.15 a.m.)—A despatch from Rome to the Exchange Telegraph company dated Tuesday says:

"A Petrograd despatch states that a fierce battle between the army of General Rennenkampf and that of the German general Von Hindenburg has been raging since Sunday morning along a front extending from Grodno to Druskienki on the Nieman river. Four army corps have been engaged on both sides and the Russians are being reinforced constantly from Vilna. The Russians have repulsed the Germans already at several points."

## ANTI-BRITISH FEELING IN AUSTRIA STATED IS NOW MORE PRONOUNCED

Venice, Sept. 30.—News has reached here saying the anti-British feeling in Austria is becoming more pronounced than ever before. The few remaining British residents in Trieste are finding their position intolerable. An English chaplain in recent days has been arrested three times. On the last occasion he was called out by a mob at 4 o'clock in the morning and the police insisted on remaining in his bedroom while he dressed.

An English lady, 78 years old, in the same city has been compelled to report herself in person to the police station every other day.

Przemysl Completely Surrounded.  
Washington, Sept. 30.—Col. Jewelsky the Russian military attaché here received official despatches almost identical with the report of operations issued from Petrograd and reaching this country last night by way of Paris. He said they indicated that Przemysl was completely surrounded although they did not confirm a reported fall of the fortress.

Decide Roumania's Attitude.  
London, Sept. 30.—(2.22 p.m.)—The Pome correspondent of the Exchange Telegraph company reports that a message received at Rome from Bucharest says that King Charles has summoned the cabinet in special session today to decide the attitude of Roumania toward the war.

The "Copper Cavern" opened this month at Silema, Czecho-Slovakia, 124 miles from Prince Rupert. It has 22 floors.

## PAROLE SYSTEM IS SUCCESSFUL

Dominion Officer Gives figures Showing That Very Few Break Trust Imposed.

WIDE VARIANCES NOTICED  
Judges Will Have to Act in Unison Before Great Changes Can Be Advocated.

The parole system in connection with inmates of prisons in Canada, instituted 15 years ago by the dominion government, has proved a success, according to W. H. Archibald, dominion parole officer, who has held that position ever since the legislation was passed and who was a visitor to the parole system yesterday, registered at the Seidick hotel. Mr. Archibald, of course, visited the penitentiary where there, and then rode around the city with Warden Ponsford.

"There is but little uniformity of sentences as yet in the dominion," he said, "and it is useless to advocate any one unit or authority who pronounce sentence will think and act in unison. We meet prisoners in our penitentiaries who have been given sentences ranging from two to seven and five to twenty years for the same offences, the only difference is found in the interpretation of the law in the various communities."

"The worsting out of the parole system reveals that the major portion of those released have served from one-third to two-thirds of their sentence before the minister of justice has passed a favorable consideration. But the parole officer who has been imposed generally serves the major portion of his term."

"Statistics of the parole system are met with in the interpretations of the law where a maximum or minimum penalty is imposed. Some penitentiaries at the side of the law have sought relief from this problem by the adoption of the indeterminate sentence system, but it still an open question whether this movement has anything better to offer to the judge or magistrate than the old maximum and minimum penalty."

The following are the statistics since the inception of the act 15 years ago: Of the balance, 3,098, of prisoners, reformatories and jails. The number of paroled prisoners who have come back to the penitentiary is 5,118, and there are still 704 reporting. The number of forfeitures for subsequent convictions is 152 or 2.1 per cent, and the number of recidivists for non-compliance with conditions of license is 25 or 0.35 per cent.

"The correct criterion in summing up the effective work of the parole system must be taken from the entire figures," said Mr. Archibald, as he handed out the figures. "These figures reveal that 12 have committed offences and were returned on subsequent conviction and forfeited their license, also that 152 prisoners were not altogether satisfactory in their reporting and consequently their license was revoked. Of the 152, 100 were in the entire loss to the system thus far is 143 or a little more than six per cent."

## MEXICAN SITUATION LOOKING HEALTHIER— SETTLEMENT EXPECTED

Washington, Sept. 30.—Development in the Mexican situation today awaited the outcome of conference between Carranza and Villa leaders. A feeling of optimism prevails in administration circles, where officials hoped the elimination of both Carranza and Villa as presidential candidates would heal the breach and bring about peace.

At the cabinet meeting the situation was discussed and the officials brought late despatches from Carranza agents in Mexico. The administration was well described as one of watchful waiting.

## RUSSIANS LOOT WILLIAM'S ESTATE IN EAST PRUSSIA CAPTURING FINE CATTLE

London, Sept. 30.—A despatch to the Star from Petrograd says that among the remarkable war trophies arriving at Smolensk is the entire stock of Emperor William's famous pedigree cattle and stud horses, captured by the Russians from the emperor's estate at Rominten, in east Prussia. They were taken to Moscow and presented to the Russian agricultural institute for distribution to agricultural breeding agents.

England Rises to Occasion.  
London, Sept. 30.—(7 a.m.)—England has come to the relief of the stricken Belgian refugees with such spontaneous magnanimity that the refugees committees have been forced to decline many of the flood of offers of shelter. The authority for this statement is Lord Gladstone, former governor of South Africa, who is now a leader in the committee's work.

NO CONFIRMATION  
REPORTED DEFEAT  
OF GERMAN RIGHT  
Washington, Sept. 30.—Official dispatches received by the French embassy today duplicated in part last night's official statements of the Bordeaux war office and gave no confirmation of the reported defeat of the German right wing. A cabinet telegram announced more liberal conditions for business men under the moratorium.

## GERMAN COMMISSARIAT BROKE DOWN WHEN ARMY WAS RETREATING WEST

London, Sept. 30.—According to a Rotterdam despatch to the Daily Mail, private information from Berlin says that before the retreat to the western frontier, the German commissariat broke down completely. For a fortnight a modicum of the Germans lived on bread and water. So great were their sufferings that large numbers entered the hospital with nervous breakdown; many became insane.

## Official German Report Lacks Confident Tone of Those Previously Given

Says General Fighting Has Occurred on Right Wing Without Decision—Gallic Advance in Vicinity of Verdun and Toul Has Been Renewed—Army Operating Against the Forts at Meuse Has Been Repulsed—States That Russian Assaults in Suwalki Have Failed.

## C.M.R. ENTERPRISE SHOWS VALCARTIER

Railway Puts Dining and Lunch Cars at Disposal of Thousands.

Owing to the comparative proximity of Valcartier military camp to the city of Quebec, during the mobilization, in addition to the movement of troops, a steady current of travel passing in and out of the tented town. With those engaged in business connected with the tremendous bulk of supplies needed for the camp and equipment, the very considerable number of relatives and friends who have been coming to the camp, and the number of visitors to the camp, the railway has been obliged to place at the disposal of the camp, a dining car, a lunch car, and a baggage car.

During the early days of the camp, these people were seriously inconvenienced by the fact that there was no place for them to stay. The railway has been obliged to place at the disposal of the camp, a dining car, a lunch car, and a baggage car.

The 16 miles which separate Canada's great stronghold from the Atlantic capital is but a short journey once a day, but too much to cover three times for meals. It is true that a first-class hotel was only about five miles distant at Lake St. Joseph, but this was in the limit of its capacity for regular guests who made the headquarters, to be near Valcartier.

A somewhat disagreeable situation was thus created until the Canadian Northern railway, upon whose main line the camp is situated, took prompt action to obviate the difficulty as far as possible by placing a dining-car and a commissary car at its station near the camp. The quality of the Canadian Northern equipment is well known, and those who desired were able for two or three weeks to the camp as good meals there in the country as would be possible in any city.

The commissary car a lunch counter was maintained for those who wish to complete their meals and who are not able to do so at the camp.

The appreciative response to this accommodation was instantaneous, and so general that the dining car had three sittings for every meal, and a double staff had to be maintained in the camp when the camp was open to the general public and cheap excursions were run by the railway from every point on its lines in eastern Canada, not only both cars, but an additional diner were in constant use from morning until night. The capacity of each diner is 30 people at a sitting, so that a large number of people were accommodated each day, and every one was enthusiastic over Canadian Northern enterprise, exemplified by this small convenience which is only an incident in the day's work of operating a system embracing over 7,500 miles.

## PRINCE OF BAVARIA REPORTED CAPTURED AT TOWN OF NIMNY

London, Sept. 30.—The correspondent of the Times at Nancy, telegraphing under date of September 28, gives an unconfirmed report that the French have retaken St. Mihiel, a fortified encampment on the Meuse, twenty miles southeast of Verdun, and that they have captured the Prince of Bavaria at Nimny, 14 miles north of Nancy. The correspondent adds that according to the report the Germans are assaulting Nimny with the object of retaking the place.

The prince of Bavaria referred to in the London Times despatch is probably the Crown Prince Rupprecht of Bavaria, who is in command of the Bavarian army in that region.

Austria's war-strength army is about 1,200,000 men.

## No Change In Price of Blue Ribbon Tea

THE BLUE RIBBON TEA CO. have pleasure in announcing that they do not propose to take advantage of the advance in price of tea. This company is in a position to supply all the Tea required in Western Canada, and will sell at old prices indefinitely.

P.S.—In spite of the heavy duty which has just been imposed upon coffee, we will continue to sell Blue Ribbon Coffee at old prices.

## Official German Report Lacks Confident Tone of Those Previously Given

Says General Fighting Has Occurred on Right Wing Without Decision—Gallic Advance in Vicinity of Verdun and Toul Has Been Renewed—Army Operating Against the Forts at Meuse Has Been Repulsed—States That Russian Assaults in Suwalki Have Failed.

Berlin, Sept. 30.—A report given out at army headquarters says:  
"There has been general fighting on our right wing in France, but nothing decisive. The center is quiet. The French advance in the vicinity of Verdun and Toul has been renewed."

London, Sept. 30.—A despatch to Reuters from Berlin coming via Amsterdam says that the headquarters of the German general staff made the following official statement last night:  
"On our right wing in France, indecisive battles have occurred. Between the Oise and the Meuse it is generally quiet. The army operating against the forts on the Meuse was repulsed."

"The French have made a new assault along the line from Verdun to Toul."

"Our siege artillery has opened fire on the forts of Antwerp. The assault of the Belgian forces against the attacking line has been repulsed."

"In the eastern theater of the war the Russian assaults in the government of Suwalki failed. Heavy artillery yesterday began a bombardment against the fort of Ossorenk."

## GERMAN ZEPPELINS MAKE FURTHER FORAYS, CON- VENT ST. VINCENT HIT

London, Sept. 30.—A Central News despatch from Amsterdam says that further forays have been made by Zeppelin dirigible balloons. Four bombs were dropped on Deyne, nine miles southwest of Ghent, and two thrown on Thelt, 15 miles southeast of Bruges.

At the former place the convent of St. Vincent was badly damaged.

Copenhagen, Sept. 30.—The war has ruined many of the world's famous musicians.

Perruccio Buonini the pianist, who has often played before American audiences and has a large following there, has had to cancel a \$50,000 tour.

Leopold Godowsky, the Polish pianist, whose home was in Chicago for six years, has fled, penniless, from his castle near Brussels.

Dienberger, the famous teacher, is playing for \$15 a month in a Berlin restaurant.

Joseph Weiss, another noted German pianist, is playing at a third class cafe. Ignatz Friedman has cancelled a tour guaranteed to net \$17,500 and is going to Italy.

Zador, the harpist, who made \$75,000 in the United States last year, is almost the only one whose money is safely invested.

Raised Check From \$50 to \$55,000.  
Montreal, Sept. 1.—James Hinchey, real estate broker, was yesterday found guilty of raising a check from \$54 to \$54,000 on October 6. Following the verdict, he was taken to the cell and locked up, a fate he has escaped since his arrest, having been out on bail.

Belgrade's ordinary population is about 90,000.

## 75c--Bargain Day--75c

Every Thursday is bargain day and your chance to get acquainted with the New Method Wet Wash. You will like this new method of getting rid of your weekly washing. Ask your neighbor, she can tell you more about it than we could on a whole page.

All washings collected on Thursday and up to Friday night in the West end, East end, Norwood and Fraser Flats will be 75c instead of our regular price, 90c.

## THE COUNTRIES WHICH MUST EVENTUALLY WIN

According to the director of the United States mint, who probably comes as near as anyone to knowing, the gold stocks of the world at the time of his 1912 report amounted to \$7,928,342,100, of which total Britain, France, Russia, Belgium, Serbia, Germany and Austria were credited with having held \$3,462,100,000. Added to these the warring countries had money of other classes bringing their total to \$5,435,400,000.

Of this gold and money of other classes only a part is in the hands of governments and in times of the remainder war has a tendency to disappear in a most marvellous manner, individuals hoarding it as a safeguard against starvation, loot or confiscation.

To what extent money may disappear in war time, even in a country not actually visited by the war, the Canadian bank reports give some illuminating insight. In July, for instance, there was in circulation in Canada \$94,815,561 of bank currency. In August this currency was given the backing of the government which, in effect, made it as good as gold. On August 31 the total of these guaranteed Canadian chartered bank bills out had jumped to \$114,551,525. This at a time when business, suffering from the shock of war which so nearly brought it to a standstill, actually required less circulating medium and in spite of the fact that in a normal August the circulation should not have been greater than seventy-five million dollars. The answer, of course, is that the eight million people of Canada, in a spirit of mild panic, had secreted in their pockets and in the baking powder can under the bed, some forty or fifty million dollars that they never would have thought of holding out had there been no war. This being the case in a country not directly suffering from the visitation of war, one can but imagine the extent to which the hoarding of money would be practised in countries where the scene of hostilities is immediately at hand.

So that, in estimating the amounts available to the various governments for uses in war, the actual stocks of gold and other currency in the countries can scarcely be accepted as a criterion, even were the governments in a position to commandeer the total amounts.

But presuming that there could be such a thing; that the European governments could commandeer all the gold and currency in sight; and presuming that the estimate of \$50,000,000 a day as the cost of the war is somewhere near accurate, it will be seen that these warring governments would put through the war mill, in the short period of less than four months the total of \$5,435,400,000 which is estimated by the United States mint to be somewhere near the entire amount of money—gold, silver and paper—within their borders.

By the flotation of bonds, of course, this money could be gathered into heaps again and put through the war mill a second time, and as a matter of fact this is what actually takes place, not only in war, but in all business. Money, in warfare, is different from gunpowder, in the respect that when spent it does not necessarily fly back immediately to its original element, but can be made to rotate and repeat.

But the prognosticators who estimate the length of the war by the actual money available, or even in existence, are put entirely to rout when they look into history and come up against the case of France, in the midst of a revolution, with its money depreciated to one cent on the dollar, putting a million men in the field with a Napoleon at the head to conquer almost the known world.

France, of course, at that time was tasting a new freedom which had opened to newly-freed men vast areas of land which had hitherto been held feudally by nobility and the church. The spirit of freedom which inspired their armies on the march also inspired their husbands on the new-free soil.

The fact is that money is not the determining factor in fixing the duration of a war. It is not gold with which armies are fed, but the food stuffs which it is the gold's mission to buy. Sooner or later the gold is due to arrive in the countries where the food stuffs are to be had. But the nation which has the stocks of food stuffs or the clear right of way to the countries where such may be had, either for gold or for credits, must eventually win.

At the present juncture this spells Britain and Russia.

## LOOKING FOR NEW SOURCES OF REVENUE

During the fiscal year ending June 30, 1914, Canadian imports fell off \$114,000,000 as against the previous year, a slump in customs revenue of \$20,000,000. This was before the war, which did not break until August. Since the opening of the war imports have, naturally, been still less, and there will be a consequent reduction in customs duties during the current fiscal year which will probably far exceed that of last year.

At the special session of the dominion parliament some provision for offsetting this decrease of customs revenue was made, but this provision took the form, very largely, of an increase in tariffs on certain commodities counted as necessities—sugar, for instance. However, with imports falling in any event, the effect of increasing customs duties must be to accelerate the decrease in importations, with a corresponding impairment in revenue, thus shattering trade and at the same time defeating the purpose of getting revenue. Advance estimates place this further impairment at \$15,000,000.

The fact is that as a source of revenue the tariff is proving itself a failure. Canada is going to be faced with the necessity of turning to some other source.

In United States, under similar circumstances, President Wilson turned to the taxation of incomes. Lloyd George, on the other hand, having already taxed incomes, sought to make up a further deficit by taxing increment.

In Canada incomes of a taxable size are less numerous in proportion to population than in either Britain or United States, and they are more generally earned incomes. Increment, on the other hand, is much greater in proportion to population, and is never earned.

There may be doubt as to the direction in which Canada will look for the revenues which must substitute an impaired customs revenue; but there is no doubt as to which direction she should look.

## AN INDICATION THAT PARIS FEELS SAFE

One of the most significant little dispatches which has come through in recent days is that which announced that the wireless was working on the Eiffel Tower.

In the bombardment of a city it is the high points that the cannons are aimed at first. The German's justification for the destruction of the cathedral of Rheims was that a signal station had been placed in the tower from which directions were being given to the artillerymen inside the city. For this purpose Eiffel tower would serve admirably, as so long as there was a chance of a German siege of Paris the wireless thereon would be in danger.

Now the wireless is up again, an action which denotes that Paris feels certain that the Germans are ticketed in an easterly direction.

**Dr. Morse's Indian Root Pills**  
exactly meet the need which so often arises in every family for a medicine to open up and regulate the bowels. Not only are they effective in all cases of Constipation, but they help greatly in breaking up a Cold or La Grippe by cleaning out the system and purifying the blood. In the same way they relieve or cure Biliousness, Indigestion, Sick Headaches, Rheumatism and other common ailments. In the fullest sense of the words Dr. Morse's Indian Root Pills are a Household Remedy.

## HOME DEFENCE

(By An Officer of the Militia)  
Are you a member of the Canadian militia? Are you a British subject or naturalization, able bodied, and between the ages of 18 and 45? If so, you are a member of the Canadian militia.

As such have you made yourself proficient in drill and the use of arms? Remember ability to use arms is useless without the ability of taking your proper place in the ranks and retaining it.

You have two means of performing your training. One is by voluntary enlistment in the militia regiments in your own town. The other is by being compelled to do so when the time comes. Why wait? Will not learn now?

The militia means you, if not to proceed to the seat of war, then to maintain peace at home. The Canadian militia is the only home defence body that ever has been contemplated or ever will be contemplated so long as the citizens of Canada carry out their obligations as citizens and make themselves proficient in the art of defending their homes from either foreign invasion or interior disturbances.

## JOINING OUTLAWS APPEARS TO MIX BASEBALL PLAYERS

Former Major League Stars, Who Jumped to Feds Suffer Misfortune.

Baseball players are naturally superstitious, and some of them in the organized game do not hesitate to say that a player who jumps to the Feds is jinxed.

They base this assertion on the ill-fortune that has followed some of the "organized" baseball magnates and the very nature of this proposition shows to what desperate straits the game has fallen, says a morning paper. "Take Joe Tinker, the original jumper. A month ago he had to leave the game owing to injuries and was not able to play again this season. Tinker, who batted .317 in the National League in 1913, must have gone back, for when he was obliged to quit the Chi and his batting percentage was only .242.

Addition Brennan has been a prize package of misfortune all year. Although Tinker counted on Brennan being one of his mainstays, the jumping "Philly" contracted rheumatism last spring and has been virtually useless all season. Brennan has pitched only six games this year, and he lost four of them.

Under the circumstances, President Russell of the National League, because Brennan's jumping saved him from having an invalid on his hands, Kilpatrick, late of Detroit, who went to Baltimore, broke his leg just before the season started. Only a short time ago was he able to get in the game, and then his leg couldn't stand itself work. He has been playing in left field.

Tom Seaton did great work for Brooklyn, but has paid the penalty for oversteering his arm. He has strained his shoulder, and he is out of the game, and then his leg couldn't stand itself work. He has been playing in left field.

Russell Ford, who preferred the Buffalo to the Yankees, says Manager Chance liked to see him in the box at least once in ten years, is another prospect who is out of the game for the rest of the year, because of a bad arm. Dan Murphy, captain of the 1913 Athletics, has played in only a handful of games.

Other jumpers who have been frost-bitten are unable to play. Ray, catcher Simon, late of Pittsburgh, catcher Harden, late of Boston; Willett, late of Detroit; Groom, late of Washington; Camnitz, late of Pittsburgh and Philadelphia; Bridwell, late of Chicago; Zeller, late of the Yankees and several others. F. Otto Knabe is battling .225 for Baltimore, while Doonan is whaling them out at .13. Only both of these two former Phillies are fielding in sensational style.

All this would justify the assertion that an "Albatross" who jumps to the Feds is jinxed.

## Will Reopen Soon.

London, Sept. 20.—(5 a.m.)—A dispatch from Constantinople to the Reuters Telegram company says there is good reason to believe that the Dardanelles, ordered closed yesterday, will be reopened to navigation in two or three days.

## More Peace Treaties.

Washington, Sept. 20.—Three more of Secretary Bryan's peace treaties are on the way to consummation. The first with Greece will be signed soon. The Russian ambassador will confer with Secretary Bryan tomorrow, and still another between the United States and Sweden is being prepared.

## Children Cry FOR FLETCHER'S CASTORIA

The War is Responsible for This Sensational Offer  
MADE TO MEASURE SUITS AND OVERCOATSReg. \$20 to \$30 **\$17.50** Reg. \$20 to \$30Your Last Chance **TO-DAY** Your Last Chance

**THE REASON:**—Our immense stock of Fall Suitings was purchased from England before the War was ever thought of. We now find ourselves overstocked with Materials which, in the ordinary times when the average man's pocket-book is well filled, would sell at \$20.00 to \$30.00 made to measure, and then be exceptional value.

**THE RESULT:**—Every man can now reap the benefit of our loss—for our stock must be lowered, and in such a way that will be consistent with **Hard Times**. Never before in the history of Edmonton has such a sensational offer ever been made. Think of it!—**MADE TO MEASURE \$17.50.**

## YOU'LL NEED A NEW FALL SUIT OR OVERCOAT

Your personal appearance counts for much in these strenuous times. A man is judged almost invariably by the cut of his clothes. Look prosperous—you'll find you'll not only look better, but you'll feel better.

**REMEMBER THIS OFFER FOR ONE WEEK ONLY** We cannot emphasize too strongly the unmistakable High-Class Tailoring and the painstaking workmanship put into our Suits and Overcoats.

There's distinction in every line—there's a difference to the ordinary ready made clothing—that you can't help but notice. Furthermore you'll get a smart, snug fit, and materials of sterling worth into the bargain.

## NOTICE

A small deposit will reserve a suit or overcoat in order to give every man a chance to take advantage of the One Week offer.

**Just a Word to the Skeptical**—We have made clothes for no less than 4500 Edmonton men. What more proof of satisfaction can we offer

## UNITED WOOLEN MILLS

10106 Jasper Avenue.  
(One Door West of First St.)ADDITIONAL SPORT  
FEDERAL LEAGUE  
WILLING TO QUIT  
Want Organized Ball to Care for Chicago, Brooklyn and Pittsburgh.

Chicago, Sept. 20.—The Federal League has made a definite proposition to "the organized" baseball magnates and the very nature of this proposition shows to what desperate straits the game has fallen, says a morning paper.

"The Federal League has made an offer to retire from the field if organized baseball will take care of the outlaws clubs, Chicago, Brooklyn and Pittsburgh.

The Federals are willing to throw everything else overboard if they can have three of their principal spenders into port with a little financial advantage. For these three men, it seems to be in case of any old port in a storm."

These statements are based on information from the owner of an American league team, who declares there is no question whatever of the Federals willing to settle the war on these terms, but would not commit himself as to whether organized baseball powers would accept them.

## BOSTON PREPARED FOR CHAMP. SERIES

Stallings Will Depend on His Pitchers to Cop the Money.

New York, Sept. 20.—In preparation for the world series the Boston Braves, winners of the National League pennant for 1914, are to be kept up to the high pitch and they may have been playing for the last two months, according to Manager Stallings who left St. Louis and Port Arthur at the five game series with the Giants. The same team that battled for the pennant will appear against the Giants in the series, the Boston manager announced.

Manager Stallings said his main hope for the series was his pitching staff, and that if nothing happened to his pitchers between now and the end of next week, he would have no excuse if he lost to the Philadelphia.

## NORTHERN BALL LEAGUE HAS BEEN MUCH CHANGED

Minneapolis, Sept. 20.—When the Northern League magnates finished their reorganization work yesterday there was not much left of the old Northern League. It will be a six town loop in the future and Duluth and Superior are the only American towns left. St. Boniface and Port Arthur are new Canadian entrants. Fargo-Grand Fork, Vinona and John have been dropped. The new league is put on a ten year basis and John Burmeister will reign as president for that period.

to give a special rate on shipments of live stock from southern farms to those of the north.

**Aid Soldiers' Families.**  
London, Sept. 20.—The Russian emperor on Monday received reports of the Petrograd banks who placed at his disposal a million rubles (\$500,000) for the necessities of war and a million rubles for the organization of a hospital service and to aid the families of soldiers, says a despatch from the Tsar's Selo correspondent of the Reuters company. The emperor attended the audience.

Tokio is to spend \$10,000,000 for improved water facilities.

## Billiousness

When the liver refuses to work there is no need for the consumption of medicine, and this old and tried remedy is Paramelee's Pills. They bring bile and the digestive organs to get going. They stimulate the gall bladder and the liver.

## Paramelee's VEGETABLE PILLS

Philadelphia, Sept. 20.—Members of the National Baseball commission, composed of Governor John K. Tener, president of the National League, B. F. Johnson and August Herrmann of Cincinnati, are here to decide upon the details of the approaching series between the Philadelphia Americans and the Boston Nationals for the championship of the world.

B. F. Shibe will represent the American league club winners, while Frank J. Gilkey will look out for the interests of the Boston team.

Connie Mack, who for the sixth time has brought a championship to the most American league club, will also be on hand when the conference opens today.

## SAVE YOUR ROUGHAGE

The prospects at the present time indicate that there will be a larger amount of rough feed harvested in Central and Northern Alberta this year than usual. Because of this there will be a disposition to waste what may require a little extra effort to gather. There are many reasons this year, why the farmers should resist the temptation to do so. Farmers' losses can be obtained more cheaply now than has been the case for several years, while everything points to heavy demand for rough feed during the coming winter.

Laying aside the fact that an increased demand may result from the war which is now going on in Europe, there are many parts of Canada, and some parts of southern Alberta, where the supply of feed of all kinds is short. Because of this there will be a great many horses, cattle, sheep and hogs for sale there at prices which the more fortunate farmers in this district can well afford to take advantage of and buy. Many ranchers and farmers in the south country are desirous of having animals wintered either at a price per head or on shares. Northern farmers of limited means now have an opportunity of acquiring a few head of stock on terms that will represent to them but a small cash outlay.

Yards everywhere are now at work endeavoring to put the farmers of the north and south in direct communication with each other. The live stock branch of the provincial government is taking steps to this end. D. W. Warner, of Clover Bar, has been specially appointed by the United Farmers of Alberta to do all in his power to secure a market for live stock now in the hands of southern farmers which, owing to the present crop failure, they are unable to finish. The Canadian Pacific railway company has been asked to give a special rate on shipments of live stock from southern farms to those of the north.

## What the Theater Press Agents Say

## THE PLAYERS IN "ARE YOU A MASON?"

Although only one month has elapsed since the opening of the fall and winter theatrical season, "The Players" have already found favor with the theatre-going public of Edmonton by the masterly manner in which they have presented the various plays among which may be mentioned "The Music Master," in which Guy Harrington made himself first favorite with Empire patrons. The work of the whole company is excellent, and it is safe to predict that during the winter evenings the public will look forward with pleasure to seeing this clever organization every week. Theodore Johnston spares no pains in producing each and every play with an attention to detail that compels admiration.

The spontaneity of the applause given by the audience last week in the presentation of "The Talker" was really deserved, all the characters being perfect in the various roles, and, as the same cast will be seen this week end, "Are You a Mason?" should be greeted by every lover of high class entertainment in the city.

During these depressing times it is a real pleasure to sit and thoroughly enjoy a real comedy production, and no one will be disappointed who elects to see "Are You a Mason?"

## "WE TOLD YOU SO" AND IT IS—PANTAGES.

The management of Pantages theatre does not like to say "We told you so," but the offering this week bears forth that response. Last week it was predicted that the show would be a good one, and it is. The headliner for the week is a real live one, Frances Clare and Guy Hawson are seen with their little girl friends in "Yesterday," a delightful story of youth.

FRIDAY—AMATEURS

## GREAT SMUGGLING FILM AT BIJOU

The Bijou theatre has a triple feature as the attraction for Wednesday and Thursday. It will not only be a feature night, when a new style of the beautiful, large sized pennants will be given free to the Bijou patrons, but there will also be shown one of the really big moving picture productions seen at this theatre for some time.

"The Eye of the Government." It is entitled, and the film tells a most fascinating story of the capture by the government custom officials of a number of smugglers who were carrying on illicit trade in an extensive and successful manner. And finally there will be shown a full roll of war movies showing the capture of the fleet and armies of the contending powers.

The story was suggested, it is said, through the capture of a time ago, of two wealthy American manufacturers who were later convicted by the government for smuggling into the port of New York. On these lines the theme was developed.

The scenes are laid in Ireland and may give a very vivid picture of the country, where they are shown, also scenes on board the large ocean liner, the Adriatic, and in New York.

A large number of stirring episodes are touched upon in the film one particularly being of unusual daring. It shows the custom officer lowering himself by means of a rope, down the side of the Adriatic, to the hold of a two wealthy American manufacturers who were later convicted by the government for smuggling into the port of New York. On these lines the theme was developed.

## "SEVEN DAYS," K. and E. FILM, AT THE EMPRESS.

The program at the Empress theatre showing for Wednesday and Thursday promises to be fully up to the very high standard that has been set for it by this picture-play house. It shows the custom officer lowering himself by means of a rope, down the side of the Adriatic, to the hold of a two wealthy American manufacturers who were later convicted by the government for smuggling into the port of New York. On these lines the theme was developed.

## "THE MONEY SHARKS" LEADS ORPHEUM BILL.

On Wednesday and Thursday, on the program of the Orpheum picture house, Jasper avenue east, there will be shown a three-reel drama, entitled "The Money Sharks." This is a splendid film and deals with a cowardly brother's objections to his sister's marriage. A determined artist, however, plus a live detective, solves the real reason of the brother's opposition. This is a really charming and interesting story, and the Orpheum program also includes a very funny Pathe comedy.

## A general meeting of all the Consumers' league is booked for 3 o'clock on Friday afternoon at the Y.W.C.A.

All members are urged to attend, as some important matters will be taken up.

At a meeting of the relief committee of the Daughters of the Empire held Tuesday at the Y.W.C.A., preliminary steps were taken to hand over to the committee of the Edmonton branch of the Patriotic society. This, however, not to take effect until the wheels of the latter society are thoroughly in motion. As the reports of all the chapters are included in the Patriotic society the Daughters of the Empire will continue their work among the soldiers' families as visitors and investigators.

Mrs. John J. McDonald's many friends are delighted to see that she is able to be out motoring these beautiful days. Mrs. McDonald also will be around a little.

Mrs. and Mrs. A. E. Nash and their little family are the guests of Moon and Madame Cauchon. Their pretty bungalow in Glenora will not be ready for occupancy for another fortnight.

Mrs. Cymoduce Cauchon entertained very delightfully at the tea hour on Monday afternoon, in honor of Mrs. Phyllis Barnes, the guest including young matrons and girls. Madame Cauchon was richly robed in lavender, gracefully, with black lace garnitures. Mrs. Cauchon wore a dark blue taffeta toilet, relieved with lace collar and cuffs.

Sweet peas in artistic clusters graced the table. Here Mrs. McLaughlin, Mrs. J. H. Hunt, Mrs. Norman Soars, Mrs. Nash, Miss Jeanne Turnbull and Miss Gwen Barnes.

The guests included Mrs. Tom Dougan, Madame Milton Martin, Mrs. Jack Rogers, Mrs. Ralph Douglas, Mrs. W. H. Hunt, Mrs. Norman Soars, Miss Marion (Calgary), Miss Jeanne Tilley, Marion Ross, Miss Bessie Ford, Miss Hunt, Mrs. McLaughlin, Mrs. J. H. Hunt, Mrs. Norman Soars, Mrs. Nash, Miss Jeanne Turnbull and Miss Gwen Barnes.

Madame Joseph Chénier, of her two daughters, Winnipeg, have decided to spend the winter in town, the guests of Madame Joseph Chénier, Twelfth street.

Mrs. and Mrs. Gordon, and Miss Gordon, the daughter of Londonderry, Ireland, who have been spending a few weeks in the city, after visiting several of their friends, will leave tomorrow (Thursday) for the old land, and will visit other cities of interest on their return trip. During the stay here they have been the guests of Mrs. and Mrs. Menely, of Twenty-sixth street.

## CHINOOKS OF CALGARY GIVEN MANN TROPHY

Kendall, Formerly of High River, Played Against Calgary, and at Time He Was Professional—Will Not Defend it This Season.

Calgary, Sept. 26.—Word was received yesterday from the trustees of the Mann cup that the protest of the Chinook Lacrosse club against the Vancouver A. C. had been upheld by the trustees and the trophy has been awarded to the Calgary team.

The trouble was started when the Vancouver team protested the playing of Bill Marshall of the Chinook team. The protest was not allowed until the teams were ready to take the field. After some delay the game was on. After the Vancouver protest was handed in Manager McKinley handed a protest against Joe Kendall, who was playing with the Vancouver team, alleging that he had received money for playing the game. Vancouver would not take the protested player off the field and he played in both games.

Later the contents of the Chinooks were upheld by the British Columbia and Alberta amateur unions and Kendall was not allowed to play against Brampton, the next challengers.

In the letters from Joe Lally received today it was pointed out that no more challengers would be considered this year and that the cup would be forwarded to Calgary as soon as bonds were signed.

Austrian dominions have a total area of about 240,408 square miles.

## EXPECT TO HOLD OLYMPIC GAMES IN BERLIN, 1916

Germans Are Still Optimistic That War Will Not Cancel Contests.

New York, Sept. 26.—That the Olympic games of 1916 will be held in Berlin, despite the European war, is indicated in a letter received by the American Olympic committee yesterday from Baron Pierre de Coubertin, president of the International Olympic committee. The letter, mailed from France and addressed to the late J. P. Sullivan, says:

"The seat of the Olympiad remains what it was, and contrary to what the American papers say, I will not personally make any proposal in favor of a change. We never thought the Olympic games would stop on account of wars, and I feel perfectly sure that when the present war is over the Olympic movement will begin again as strong and fruitful as ever."

On account of the war it was suggested some time ago by English sportsmen that the games be held again in Sweden.

## NEW YORK AND BOSTON WILL PLAY PRO. HOCKEY WITH CANADIAN TEAMS

Montreal, Sept. 26.—Representatives of the National Hockey club of this city were in Boston and New York last week and are said to have practically closed a deal whereby these two cities will join in a professional hockey league.

## Y.M.C.A. NEWS.

The Y.M.C.A. handicap road race will be run this Saturday over a five-mile course starting from the Y.M.C.A. building at 6 o'clock. All those desirous of entering must do so before Thursday, October 1, at 10 p.m., at the Y.M.C.A. office.

For some time past the swimming pool has been out of commission owing to the numerous changes, painting, etc. Today will see the reopening of it at about 6 p.m. All showers and the swimming bath will be in full use from now on. In the near future there will be installed a swimming instructor whose duty it will be to instruct all members in the art of swimming.

## Barnford Won Billiards.

Barnford defeated Kay last night in a game in the three cushion billiard tournament, which is being held in the Empire billiard rooms. The game was very exciting and both players made some excellent shots.

## INMAN LOSES THE LEAD IN COMBINATION GAME WITH AMERICAN CHAMP.

New York, Sept. 26.—After playing two 20-point games at half line today, Willie Hoppe, the world's billiard champion, led Melbourne Inman, the English billiard champion of the world, by a total score of 1,204 to 807 points in the international billiard contest here.

Inman had a lead of 602 to 304 points when play began yesterday, gaining this lead last night on the English table. Hoppe soon changed the aspect of affairs when he struck his gait at his favorite style in the first game this afternoon. He accumulated the necessary 500 points in 17 innings while Inman was gathering 107.

In the second game Hoppe was not in such good form, while Inman showed decided improvement, as he made 188 in 24 innings, while Hoppe required 25 turns at the table before he secured his quota of 500.

So far, Hoppe's chances look far better for ultimate success. The result of the three games played, Hoppe outclasses Inman 3 to 1 at half line, while the English player is only twice as clever as the American on the English table.

## Want Cavalry Horses.

Warrenburg, Sept. 26.—Orders were placed with a local horse and mule firm yesterday by agents of the French government for the delivery of ten thousand cavalry and artillery horses in Memphis, Tenn., as soon as they can be obtained.

## HOLDING PUBLIC SCHOOL SPORTS

Jumping Events Will Be Held for High Schools and Public Schools Today.

The jumping events in the Edmonton school sports will be held today. The high school pupils will compete on the south side grounds, while the public school boys will hold their meet on the McKay avenue grounds. The events commence at three o'clock sharp. The program is as follows:

Running broad jump, boys under 16.

Running broad jump, Jr. P. S.

Running broad jump, Sr. P. S.

Running broad jump, Jr. H. S.

## BRAVES FINALLY CINCH NATIONAL LEAGUE FLAG

Win Yesterday's Game From Chicago, While New York Loses to Pittsburg—Absolutely No Chance for Giants to Capture Pennant.

Boston, Sept. 26.—A double by White after Evers had been passed, broke a tie in the ninth inning today and Boston not only won from Chicago 3 to 2, but also secured the National League pennant. It was the last game of the season here for the new champions.

Tom Hughes, formerly of the Boston Internationals, who pitched his first game for Boston, held the visitors to five hits. Their first run was due to a muff by Morin and Zimmerman's triple. Sauer singled in the fourth and advanced to third on two wild pitches. When Schulte hit Hughes, Sauer was run down. Boston's first run came due to four successive bases on balls and a squeeze play. Manville buntted toward first as White's race home.

Remarkable indeed was the rise of the Boston Braves to the first place in the league this year. About July 1 they were close contenders for the championship but then they began to win games in an inexplicable manner and a way not long before they were in second place, close to the heels of the Giants. The latter were soon overtaken and the Braves have continued their upward progress practically without a set-back.

Still Slipping. New York, Sept. 26.—The New York Giants, three-time champions of the National League, lost their first loss yesterday of winning their fourth successive pennant, being defeated by Pittsburg 6 to 2. Harmon held the local hitters safe in the pinches, while Pittsburg hit the ball opportunely.

## SENIOR RUGBY SEASON WILL OPEN ON THANKSGIVING DAY

Varsity and Civics Will Clash on That Date—Knights of Columbus and Varsity Will Play on Saturday, Oct. 10.

There will be two series in the Edmonton Rugby league, senior and junior, and in each series will be two teams.

In the senior division Varsity and Civics will be matched against one another, while the intermediate series will be composed of the Knights of Columbus and a second Varsity team.

The rugby fans of the city will have their first opportunity of witnessing the first autumn game on Saturday, October 10, when the intermediates clash at Diamond park. The senior team will open up on Thanksgiving day, and as there are no counter attractions they should play to a large crowd. It was the intention to commence operations a week earlier, but on the league became dwarfed, and as there is not such a scarcity of time, it was felt that the teams would benefit by more practice.

After the city series is decided a team will be selected to play Calgary for the provincial championship. The schedule as drawn up is as follows: October 12—Civics vs. University of Alberta.

October 24—University of Alberta vs. Civics.

October 31—Civics vs. University of Alberta.

## GRAND TRUNK PRESIDENT IS AGREEABLY SURPRISED AT CONDITIONS IN WEST

Winnipeg, Sept. 26.—E. J. Chamberlain, president of the Grand Trunk Pacific, gave a glowing account last night of conditions in western Canada along his line. He has just returned from a tour of inspection, and is on his way back to Montreal. It was his first trip through to Prince Rupert, and he was very enthusiastic.

The crops through Alberta and Saskatchewan have a splendid appearance. I had expected to see a very mediocre harvest this year, but I was most agreeably surprised. One could not hope for better conditions than prevail in the sections of Saskatchewan, Alberta and British Columbia, tapped by the G.T.P.

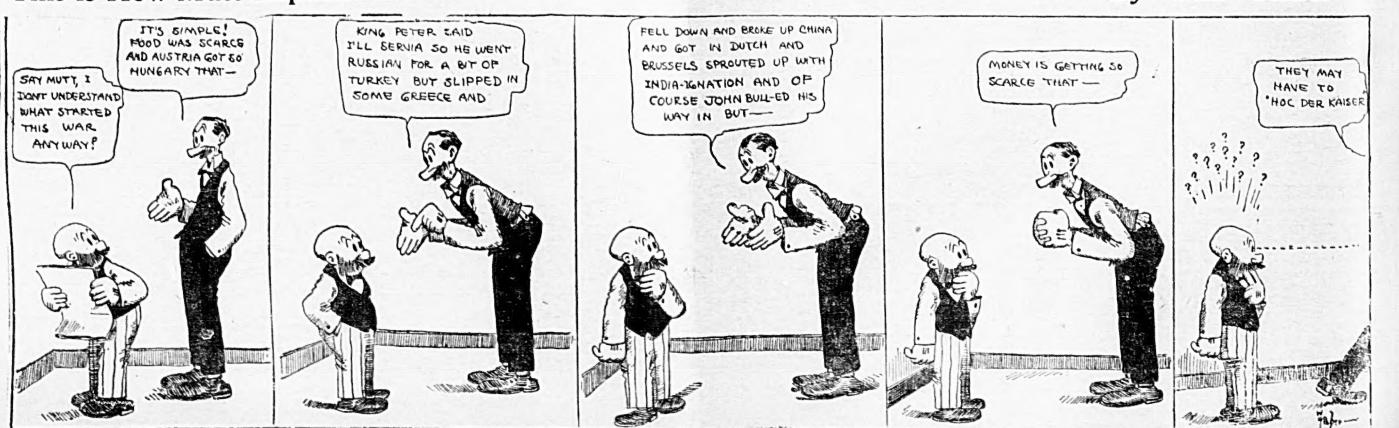

## Fidelity Guarantee

Eliminate the possibility of a crippling loss by defaulting officials NOW. Don't be too late—it may cost you heavily. It requires only a trifling outlay now to be safe. Our fidelity bonds guarantee the employer against loss. It is good business to entrench yourself. Write NOW.
